DETAILED ACTION

This Office action is in response to the amendment filed September 3, 2003.

1. The rejection 35 U.S.C. 102(b) as being clearly anticipated by HELVETIA CHIMICA ACTA 55.2139 is withdrawn in view of the amendment by applicant to exclude naphthol couplers.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-32 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by YAMADA et al '359.

The claims are drawn to a method for forming an azo colorant, a recording material comprising a support and at least one recording layer disposed thereon containing a diazo compound and a coupler which reacts with the diazo compound for developing color, wherein the coupler has a leaving group at a coupling position thereof. The claim 21 is further drawn to a method for forming an azo colorant, wherein a coupler having a structure represented by one of the following general formulae (1), (2), (3), (4) and (5) and a diazo compound are used wherein L represents a substituent that is releasable at a time of coupling with the diazo compound. Finally claim 29 is drawn to a recording material comprising a support with at least one
